War Augmented Since, He Declares.

#### RAILROADS FINISH: ARGUMENTS OCT. 29

WASHINGTON, Oct. 23 .- Final argument on the application of the railroads east of the Mississippi and north of the Ohio and Potomac rivers to increase their freight rates 5 per cent, will be had before the Interstate Commerce Commission on Thursday and Friday next. The taking of testimony was closed to-day.

The carriers put in the record to-day lowed the commission's suggestions and recommendations regarding rates in the decision handed down on July 29 they would have added only \$12,000,000 a year to their revenues, whereas they are petitioning for \$50,000,000. Samuel Rea, president of the Pennsyl-

vania Railroad Company, was the chief witness and said that the reads have appealed to the commission to modify the order made last July, because since then events have occurred in the light of which the present situation of the roads should be judged. He said he considered this situation a sufficient reason for the comm ssion to grant what the railroads ask, Mr. Rea said that the commission in its report of July 29 recognized the need for more revenues for the carriers and that the 1914 financial returns clearly indicate that this necessity has now be-

"The operating returns for July and August add to the seriousness of the st-uation," said Mr. Rea. "The war, it has been said, brings burdens for all," he added. "Why should not the railroads consider the burden that it brings upon them as one which the should themselves shoulder without seeking to be relieved therefrom?

## Had Heavy Expenses.

Mr. Rea said that the conceded inadequacy in the net operating income of railroads in official classification terricrease in property investment, and that on top of this the war has already caused a large increase in the rate of interest demanded by capital.

The question here is not whether commission shall advance rates merely rder to sustain security prices against r even to c ntinue dividends; although

"The railroads are asking for a sort of war tax," said Mr. Thorne. 'They are asking the Government to lift the burden off a part of the community and shift it over on to the shoulders of others. They ask the wage earner who has lost his job or had his wages reduced, the cotton planter who cannot sell his cotton and the manufacturer who has been compelled to close his shop or reduce his force, they ask these men to carry the burden of the railroad in addition to their own.

"If it is right for the Government to shift the effects of the war, if it is right for the Government to make good the losses of people in different industries. I am going to propose a measure that will require every hen in lowa to lay an egg every day and when she fails to do so that the Government shall make up to the owner of that hen the value of the egg she did not lay. This will enable the farmers to have more money with which o buy machinery. This in turn will make he factories keep busier; it will keep noney in circulation and make the crops digger and better. General Manager Morcom Says Employees Will Be Loyal-Officers Elected.

ZAPATISTA MEN ARRIVE

Special Cable Despatch to THE SUN. Mexico Ciry, Oct. 23 .- The board of directors of the National Railways of Mexco met to-night and elected the follow

ing members of the executive committee Senores Basave, Luis Cabrera and Nieto Rolland. Senor Tames was elected secretary. The directors ratified the recent election of a president and vicepresidents of the railroad system.

Manager Morcom of the International Railways admitted to-night that he had heard rumors of a strike for higher wages which would involve all the employees of the road. He added, however, that in his belief the strike would be only par-tial, as the great number of the employees had promised him to remain at their posts. Manager Morcom said the com-pany is in no shape to increase its salaries. It decided a year ago, he said, not to pay any dividends and, thanks to saving from this, had been able to interest on securities for the first half of the fiscal year, but will not be able to pay the second half, and the bondholders, therefore, have the right to foreclose at any moment. Traffic conditions in Mexico are good, he said, but exchange rates are

Senor Ignacio Enriquez, the new Mexcan Consul-General, who hasn't been able yet to take over the consulate because his predecessor won't relinquish the post, went to United States Marshal William Henkel yesterday to get his aid. Henkel refused to evict Francisco quidi from the consulate in the Whitehall Building, the Marshal declaring a policy of "hands off." Accordingly, the new Consul-General

appointed on October 12 by Carranza to supersede the deposed Urquidi has conceived his own plan of getting into the office. Enriquez, who is only 24 years old, said that no violence would be at-tempted. He will simply send out notices to merchants and others telling them that his office on the third floor of the White-hall Building is the consulate now, rather than the office on the fifteenth floor pre-sided over by Urquidi. Enriquez has secured the services of a lawyer, he said, and will prosecute Urquidi.

Senor Urquidi made the following state-'It is perfectly true that on October

## HAYTIAN GOVERNMENT NEAR FALL, IS REPORT

Zamor Brothers and Cabinet Cut Off From Capital by Revolutionists.

WASHINGTON, Oct. 23.—The situation of the Zamor Government in Hayli is becoming more threatening, according to advices received here. The Zamor broth-ers and the Cabinet are reported to be ers and the Cabinet are reported to be endeavoring to get back to Port au Princa from Gonaives, where they have been in connection with operations against the revolution. That they will be unable to return to the capital is indicated and there is every prospect that the Govern-ment will be quisted. ment will be ousted.

Financial conditions in Hayti are very bad. It has been unofficially reported here that the Government was contemplating the issue of several million flat money based on nothing. Si this report be officially confirmed the Senate adjourned or not.
"I will settle the problem for myself at 6:15 this evening, when the train leaves Washington for Arkansas," said Mr. Clarke.
Senator Hoke Smith replied declaring his sincerity in pressing the cotton legislation. Senator Sheppard of Texas announced that he would never vote to adjourn Congress until the relief was given, and he told Senator Clarke that he was indifferent as to what that Senator might.

By Supreme Court Justice Morschauser this report be officially confirmed it is likely that the United States Government will protest. The Government is unable to borrow any more from the Bank of Hayti, while the war has prevented the German merchants from whom it has been in the habit of getting funds from indictment and there are three others standing against him.

making further loans.

Proposals are being discussed looking to the arbitration of a dispute between the Government and the National City Bank as the chief owner of the new railroad under construction in Hayti. The Haytian Government so far, however, has displayed a very unreasonable attitude in the matter, suggesting that both arbi-trators must be Haytians and that the bank's arbitrator be chosen from a group to be named by the Government. Should the Zamor Government finally the situation and appeal to the United States for aid there is little doubt that Washington would aid Hayti materially.
